

Manufacturers That Accept Dated or Expired Stock

Please contact the Manufacturers directly for their Policy on dated or expired stock.

Our Standard Trading Terms (especially our Returned Goods Policy) still apply. Where a manufacturer's policy applies, you must ensure expired stock is returned to the warehouse of purchase no later than the 20th day of the month for credit.

You will be required to obtain a written authorisation directly from the manufacturer. Please advise all details to Customer Service prior to return. Goods returned without correct authorisation will not be credited.
